

## A.27 Reimbursement of expenses driving your own car

Reimbursement of expenses driving your own car has until now had very little significance; however as the current President lives in continental Europe many capitals can easily be reached by car.

Reimbursement will decrease with the distance in the following order:

Distance km.	Euro pr. Km	US\$ pr. km	Distance miles	Euro pr. Mile	US\$ pr. mile
0-200	0,42		0-125	0,67	
201-500	0,38		126-313	0,61	
501-1000	0,33		314-625	0,53	
1001+	0,30		625+	0,48	

The US\$ rate will be calculated once a year on 1 November
